

CEUBA SIA
CHINA EU BUSINESS ASSOCIATES

Thuc To
CEO

Dear Team CEUBA,

2016 was another memorable year, but 2017 should even be more exciting year for global trade. We are situated in the Baltic States in the middle of world trade flows and we should leverage this to deliver maximum benefit to its residence.

My goal for our clients is to engage both East and West partners and focus on long-lasting partnerships. For our team, I would like to see that our clients have the most successful year in terms of customer attraction and retention.

The vision for us is not be marginalized from the benefits of global trade, but participate wholeheartedly as Latvian and Baltic State residence.

In order for our successful execution, we must deliver new customers to our clients and help them succeed. As the world understands significant capital is flowing from East to West as disposable income rises along with consumption in China and Asian countries. This brings enormous opportunities for us to assist our clients in finding new markets and customers, and we must use our extensive network to accomplish this goal. May the year of the Rooster bring us all good luck, health, and new customers for all of our clients.

Yours Sincerely,

Thuc To
