

## Food sector study visit to Galicia - Spain

14-16 June 2023

Santiago de Compostela (Spain)

The [Galicia Food Cluster](#) (Clusaga) organizes a 3-day study visit to get to know the Galician food sector.

### Why to participate?

- Get to know the main food subsectors in Galicia and who are the main food players
- Establish relevant contacts with food companies, technology centres, clusters and innovation support organisations
- Have the opportunity to build RDI collaborations with technology centres and innovation support organisations

### Who should participate?

- European food clusters
- European tech centres in the food sector
- Food companies interested in establishing collaborations with Galicia

### Economic support

Participants may receive a 415 € lump sum in support of their travel and accommodation expenses, through the ClusterXchange scheme (AgriFoodX5.0 project).

### The AgriFoodX5.0 project

[AgriFoodX5.0](#) is aimed at the exchange of best practices and knowledge between clusters, as well as at fostering collaboration between European food companies through matchmaking and the ClusterXchange scheme.
